

Description

The drip plow is a state of the art direct burial plow that pulls dripline below ground with minimum disturbance to the soils. Developed by an industry professional who formerly installed industrial cable and drip irrigation lines, this plow is built with meticulous care to details for ease of use.

Features

- Heavy duty. Solid parts are carefully welded and worked for a clean, professional plow that is built to last for many years.
- Large chute that easily allows fittings to slide through
- Two levelers mounted on the assembly to easily make alignments as needed
- Shank drafts down and lifts soil up so there is little damage to the structure. The angle of the shaft does not wedge sideways and compress or smear the soil.
- Sod cutter included
- Unique tubing hold to keep coils from slipping off the reel
- Mounts to toolbar. Gang one, two three or four in a row for multi-row installations.
- Tubing reel has tension setting.
- Depth control.
- Articulates. Hinges to make tight curves.
